Amendments to the Claims:

Please cancel claims 16-20. The following listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Previously Presented) A mobile phone, the mobile phone including an upper phone member with a display and a lower phone member, the mobile phone comprising:

an alphanumeric keypad, the alphanumeric keypad including a left set of one or more rows of alphanumeric input keys and a right set of one or more rows of alphanumeric input keys separated by a centerline, the left set of one or more rows of alphanumeric input keys including a top row with a right-most key, the right set of one or more rows of alphanumeric input keys including a top row with a left-most key, and the right-most key of the top row of the left set of one or more rows of alphanumeric input keys being immediately adjacent to the left-most key of the top row of the right set of one or more rows of alphanumeric input keys, the left set of one or more rows of alphanumeric input keys arranged in one or more respective arcs having one or more respective arc centers located to the left of the centerline, and the right set of one or more rows of alphanumeric input keys arranged in one or more respective arcs having one or more respective arc centers located to the right of the centerline; and

a numeric keypad including a plurality of phone number input keys that together are arranged in a rectangular configuration for entering phone numbers, and distinct from, the left and right sets of one or more rows of alphanumeric input keys, wherein the left set of one or more rows of alphanumeric input keys and the right set of one or more

rows of alphanumeric input keys are sandwiched between the display and the numeric keypad.

2. (Original) The keyboard of claim 1, wherein the keyboard has a QWERTY keyboard layout.

3. (Withdrawn) The keyboard of claim 1, wherein the keyboard has a DVORAK keyboard layout.

4. (Original) The keyboard of claim 1, wherein the one or more respective arc centers of the left set of one or more rows of input keys are concentric and the one or more respective arc centers of the right set of one or more rows of input keys are concentric.

5. (Original) The keyboard of claim 1, wherein the one or more respective arc centers of the left set of one or more rows of input keys are collinear and the one or more respective arc centers of the right set of one or more rows of input keys are collinear.

6. (Original) The keyboard of claim 1, wherein the one or more respective arc centers of the left set of one or more rows of input keys are collinear and located in at least one of a vertical line and a horizontal line and the one or more respective arc centers of the right set of one or more rows of input keys are collinear and located in at least one of a vertical line and a horizontal line.

7. (Previously Presented) The keyboard of claim 1, wherein the respective arcs of the left set of one or more rows of input keys and the respective arcs of the right set of one or more rows of input keys include radii of curvature between 10 mm and infinity.

8. (Previously Presented) The keyboard of claim 1, wherein the arcs of the left set of one or more rows of input keys and the arcs of the right set of one or more rows of input keys form respective angles between 0 and 90 degrees with respect to the centerline.

9. (Cancelled)

10. (Previously Presented) A mobile phone, the mobile phone including an upper phone member with a display, a lower phone member the mobile phone comprising:

an alphanumeric keypad, the alphanumeric keypad including a left set of one or more rows of alphanumeric input keys including a left-most alphanumeric input key and a right most alphanumeric input key and a right set of one or more rows of alphanumeric input keys including a left-most alphanumeric input key and a right most alphanumeric input key separated by a centerline, the left set of one or more rows are opposite the right set of one or more rows, and lines drawn through the left-most alphanumeric input key and the right most alphanumeric input key of opposite rows intersect the centerline, immediately adjacent the right-most alphanumeric input key of the left set of one or more rows of alphanumeric input keys and the left-most alphanumeric input key of the

right set of one or more rows of alphanumeric input keys, to form a V shape with a vertex intersecting the centerline; and

a numeric keypad including a plurality of phone number input keys that together are arranged in a rectangular configuration for entering phone numbers, and distinct from, the left and right sets of one or more rows of alphanumeric input keys, wherein the left set of one or more rows of alphanumeric input keys and the right set of one or more rows of alphanumeric input keys are sandwiched between the display and the numeric keypad, and the open end of the V shape directed towards the display and the vertex directed towards the numeric keypad.

11. (Original) The keyboard of claim 10, wherein the keyboard has a QWERTY keyboard layout.

12. (Withdrawn) The keyboard of claim 10, wherein the keyboard has a DVORAK keyboard layout.

13. (Original) The keyboard of claim 10, wherein the lines drawn through the left-most input key and the right most input key of each row intersect at the centerline to form an angle with respect to the centerline that is between 0 degrees and 90 degrees.

14. (Original) The keyboard of claim 10, wherein the left set of one or more rows of input keys are arranged in one or more respective arcs having one or more respective arc centers located to the left of the centerline, and the right set of one or more rows of

input keys are arranged in one or more respective arcs having one or more respective arc centers located to the right of the centerline.

15. (Previously Presented) The keyboard of claim 14, wherein the respective arcs of the left set of one or more rows of input keys and the respective arcs of the right set of one or more rows of input keys include radii of curvature between 10 mm and infinity.

16 – 20 (CANCELLED)
